

IT Support and Service Level Policy

Version 3.2 · Owner: IT Department · Review: annually

1. Purpose

This policy explains how to get IT support and how quickly the service desk responds.

2. Service desk hours

The service desk is open from 08:00 to 20:00 IST, Monday to Friday. Outside these hours, only P1 incidents are handled, through the on-call number published on the intranet IT page.

3. Priorities

Every ticket is given a priority. P1 means a critical service is down for many users. P2 means a major service is degraded or one team cannot work. P3 means a single user is affected but can still work. P4 is a request or a question.

4. Response and resolution targets

P1: response within 15 minutes, resolution target 4 hours. P2: response within 1 hour, resolution target 1 business day. P3: response within 4 hours, resolution target 3 business days. P4: response within 1 business day, resolution target 10 business days.

5. Major incidents

Every P1 incident receives a major incident review within 5 business days of resolution. The review records the timeline, root cause and follow-up actions.

6. How to raise a ticket

Raise tickets through the IT portal or by email to the service desk. Include your location, the affected system, what you were doing and any error message. Phone the service desk only for P1 and P2 issues.
