

Printing and Scanning Policy

Version 1.4 · Owner: IT Department · Printed copy · Review: annually

1. Purpose

This policy explains how staff use the shared printers and scanners, and how print costs are controlled.

2. Secure print release

All print jobs are held on the print server until you release them at the printer by tapping your badge. Jobs that are not released within 24 hours are deleted automatically.

3. Colour printing

Each employee may print up to 200 colour pages per month. Black-and-white printing is not limited. Requests for a higher colour allowance need approval from your line manager.

4. Default settings

All printers print double-sided (duplex) by default. Single-sided printing must be selected each time.

5. Scanning

Scan-to-email is available on every multifunction printer. The maximum size of a scanned file sent by email is 20 MB; larger scans are saved to your personal network folder instead.

6. Confidential documents

Confidential documents must be collected from the printer immediately. Never leave Confidential or Restricted printouts unattended, and use the locked shredding bins to dispose of them.

7. Supplies and faults

Toner and paper are replaced by the facilities team. Report printer faults through a P3 ticket in the IT portal, including the printer name shown on the label (for example FLOOR3-PRINTER-A).

8. Personal printing

Personal printing is allowed for up to 20 pages per month.
